IS Claims Responsibility for Texas Cartoon Attack

(AP) The Islamic State group claimed responsibility on Tuesday for a weekend attack at a center near Dallas, Texas, exhibiting cartoon depictions of the Prophet Muhammad. An audio statement on the extremist group's Al Bayan radio station said that "two soldiers of the caliphate" carried out Sunday's attack and promised to deliver more in the future. The statement did not provide details and it was unclear whether the group was opportunistically claiming the attack as its own. It was the first time the Islamic State, which frequently calls for attacks against the West, had claimed responsibility for one in the United States. Two suspects in Sunday's attack in the Dallas suburb of Garland were shot dead after opening fire at a security guard outside the center. The suspects have been identified by officials as Elton Simpson and Nadir Soofi. They opened fire in on an unarmed security officer stationed outside the contest center featuring cartoons of the Muslim Prophet Muhammad.

Significant Events – International

Nepal Earthquake: UK Agencies Warn of Serious Disease After Disaster

(BBC News) There is a risk of serious outbreaks of disease in the aftermath of the Nepal earthquake, aid agencies have warned. A lack of shelter, contaminated water and poor sanitation could lead to cholera, dysentery and other water-borne diseases, the charities said. The UK's Disasters Emergency Committee (DEC) said in some areas people were living and defecating in the open. The umbrella organization, formed of 12 charities, said immediate action was needed to tackle the problem. More than 4,000 aid workers from around the world have been helping with relief and rescue operations. DEC member agencies have been working to provide better emergency shelter and to ensure drinking water and sanitation are a part of the emergency response. The scale and cost of this aspect of the response are still being assessed but it was clear action was needed now before the rainy season starts in June, a spokesman said.

Thai Police Find New Trafficker Camps; Crackdown Intensifies

(AP) Police found two more camps Tuesday believed to have held human trafficking victims in southern Thailand — one recently abandoned and the other containing a buried skeleton — days after the grim discovery of 26 bodies at a separate location exposed a thriving human smuggling network in the country. Tuesday's discovery was part of a mission to find survivors — or bodies — that activists say are hidden in the mountains, five days after authorities dug up the 26 corpses at a nearby camp along the Thai-Malaysian border. Authorities say the camps are believed to have been used by a transnational network that smuggled ethnic Rohingya Muslims from Myanmar and migrants from Bangladesh and then abused them and held them captive until their families could pay ransoms. The discoveries have publicly shamed Thailand, which is already under pressure from the United States and the European Union to crack down on human trafficking.

SITUATION SUMMARY

7.8 Magnitude Earthquake, Kathmandu, Nepal

In response to Nepal's request for urban search and rescue (US&R) assistance the United States State Department, U.S. Agency for International Development's, Office of Foreign Disaster Assistance (USAID/OFDA) has deployed two INSARAG-Classified Medium US&R teams: Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), consisting of 54 personnel to include six Canine Search Teams; and Los Angeles County, CA (CA-TF2, identified by USAID/OFDA as USA-2), consisting of 57 personnel to include six Canine Search Teams. USA-1 and USA-2 are actively operating in Nepal at this time.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- [See attachment for Drought Update dated 05/04/15](#)

Weather of Concern

- [No significant Weather Watches or Warnings are in effect.](#)

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper trough will dive south over California this week; however, conditions will remain mostly dry with only a few isolated showers over the interior mountains. Temperatures should continue to be seasonal over the next few days.

Medford Weather:

An upper low will move south across the forecast area over the next couple days resulting in some showers along with cooler weather. An upper cold pool will arrive tomorrow with a chance for lightning. The low exits to the south on Thursday stabilizing conditions. There will still be a possibility of showers, but thunderstorm chances will be confined mainly to Modoc County. Dry conditions and a warm up are forecast for the weekend.

Reno Weather:

A weak disturbance moving through Southern California will keep the best chances for thunderstorms south of Highway 50. From Wednesday through Friday, a strong low pressure dropping south from western Canada will bring much cooler temperatures and increased shower coverage, with snow possible in the Sierra. Warmer conditions and decreasing shower chances return for the weekend.

San Francisco Weather:

Quiet weather with temperatures a few degrees cooler than normal can be expected today and Wednesday. There is a slight chance of showers and thunderstorms Thursday and Friday, mainly over the mountains, as a system moves in from the north. Dry weather conditions and slightly warmer temperatures return for the upcoming weekend as the upper level system shifts inland.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry weather will continue through early Wednesday before a cooler and more unsettled pattern begins late Wednesday into the end of the work week. This will bring a chance for showers and thunderstorms, mainly to the mountains.

Hanford Weather:

An upper level trough of low pressure over the area today and Wednesday will allow an upper level low to drop southward across the area Thursday. This will bring cooler temperatures and unsettled conditions to the area Thursday and Friday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Night through morning low clouds and fog will continue through midweek. Low pressure will keep temperatures below normal through the end of the week. There will be a chance of rain along with a slight chance of mountain thunderstorms Thursday morning through Friday morning. High pressure will warm temperatures to at or slightly above normal by Sunday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Onshore flow will bring slow cooling through Wednesday with west winds in the mountains and deserts and a continued deeper marine layer west of the mountains with areas of night and morning low clouds and fog extending inland onto the lower coastal mountains slopes. For Thursday and Friday, a cold low pressure system from the north will bring additional inland cooling, stronger gusty west winds in the mountains and deserts, and periods of showers along and west of the mountains, most likely Thursday night. Dry with a warming trend for Saturday through Monday under high pressure.

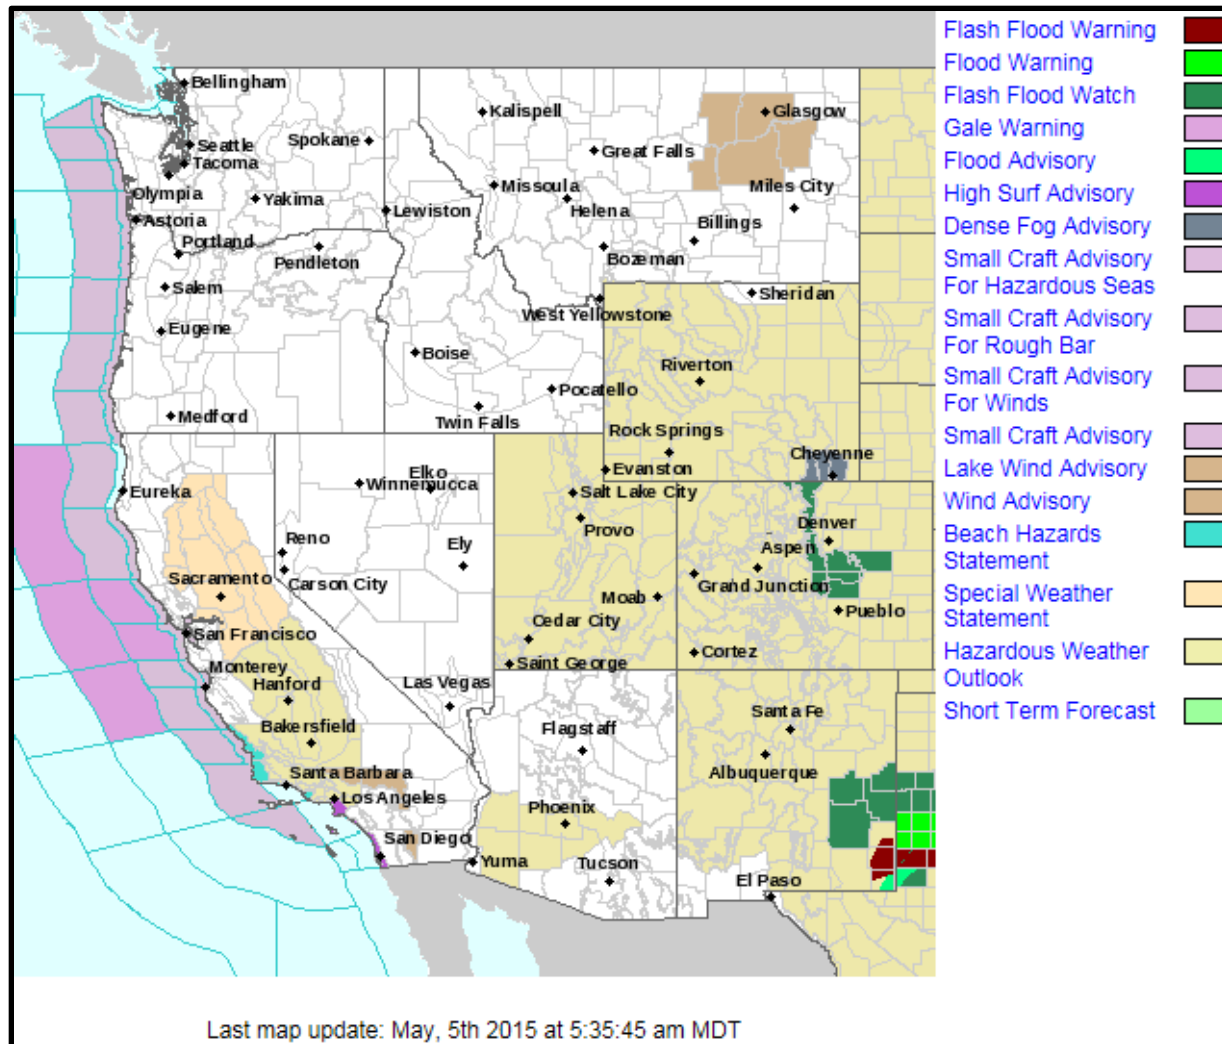

Southeast California Weather:

Low pressure over the Western United States is expected to keep temperatures below normal through the week. A disturbance moving into the region later this week will bring cooler temperatures, gusty winds, and even a slight chance for a shower before a slow warming trend commences from the later part of this weekend into early next week as high pressure gradually rebuilds over the Desert Southwest.

RECOVERY ACTIVITIES

Round Fire, Mono County

- On Day 29, received confirmation sampling results from six sites and two re-tests. Of the six, four sites were below objectives and two were not. Of the two re-tests, both were below objectives. All hazard trees were removed on Day 29. Hydro-seeding of private lots started.
- Tree falling crews completed removing, bucking, and chipping hazard trees on the private home sites. Contractors continued installing erosion control devices and working on final punch list.

Project Totals as Day 29:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
37	Debris removal completed.
37/35	Confirmation sampling completed/approved.
34	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Daily Tonnage:

Category	Day 28	Day 29
Debris/Ash	0	0
Soil Disposed	0	0
Metal Recycled	0	0
Concrete Recycled	0	0
Total	0	0

Estimated Project Total Tonnage for the Project as of Day 29:

Category	Total Tons
Debris and Ash Disposed	3,459
Soil Disposed	4,480
Metals Recycled	1,476
Concrete Recycled	3,916
Total All Categories	13,331

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 56 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County).
